## WORK EXPERIENCE

**Riskalyze** • (Atlanta, GA) • Jan 2019 - Present

**Senior Software Engineer** - Frontend Technical Lead Developer for projects (React, Redux, Redux-Saga, TypeScript, Jest, Enzyme, Node, D3.js)

- Served on-call rotations to respond to critical product error alerts, act as communication liaison between engineering and customer care during process of shipping emergency fixes
- Worked with Junior engineers to ensure code quality and project delivery
- Solved iFrame communication challenges between React children and Backbone-Marionette parent code for department
- Advocated for good unit testing practices
- Provided feedback to improve Kubernetes cloud native developer environment
- Traced and debugged issues in PHP backend
- Involved with decision-making councils to help shape our architecture and internal UI library
- Researched and made cases for adding libraries/packages to our codebase
- Researched efforts to update outdated libraries

**Riskalyze** • (Atlanta, GA) • Feb 2017 - Jan 2019

**Software Engineer** - Individual Contributor for shipping Frontend features (Backbone, Marionette)

- Assisted with tech stack migration to React, Redux, Redux-Saga
- Helped onboard new Engineer hires
- Managed tasks and project progress with Jira, Notion
- Collaborated frequently with engineers across time zones

**SimplePart** • (Atlanta, GA) • Jun 2015- Jul 2016

**Frontend Web Developer** - Bringing client websites to life with pixel perfect precision (HTML, CSS, jQuery)

- Implemented cross-browser stable, responsive e-commerce sites for 15+ clients
- Performed basic SQL queries to update and manage client site data
- Sought out and shared solutions for improved User Interface and User Experience
- Established a consistent LESS stylesheet template to improve developer experience

**Eye Care Centers Management Inc.** • (Morrow, GA) • October 2012 - 2014

**Clinical Research Coordinator**

- Assisted with Vision Acuity, Medical History Gathering, Ophthalmologic Testing
- Adhered to strict HIPAA guidelines
- Performed data entry, responsible for up to 3 study protocols at a time
- Recruited patients, scheduled appointments, tracked patient compensation

## NOTABLE PROJECTS

**Modeled Performance** - learned D3.js to build a complex, interactive graph widget for keynote announcement deadline to entice customer base of +20,000 to upgrade their plans

**Upgrade / Cancel** - built new workflow to help automate user experience when upgrading or cancelling their plans. Significant, delightful impact for end users, and Customer Care and Billing Teams

**Proposal Statuses** - revamped the way users manage and present portfolios and proposals to their clients with a visually refreshed organizing and tagging workflow

**Firm Attachments** - a File Upload feature delivered under strict SEC compliance deadlines

## EDUCATION

**The Iron Yard Academy**

(Orlando, FL)

Sep 2014 - Dec 2014

- Front-End Web Development coding intensive

**University of Georgia**

(Athens, GA)

Aug 2008 - May 2012

- B.A. Theatre and Film Studies, cum laude

## HOBBIES & INTERESTS

Swing dancing, rock climbing, photography, roller skating
